**Time:** 10am

**Location:** North Shore Police Station

**Topics discussed:**

- Gangs
- Issues at Albany mall (some of our kids from both subdivisions have been victims of bullying and theft)
- Hooten reserve, this has become the hotspot for our youth
- Secure Hibiscus and Bays project
- Lighting in reserves and accessways
- Input by Police on some projects by the local board

On 22.07.21 at the HBLB workshop, I verbally updated the board on this meeting and discussed the topics raised in more detail.

- Activation programme

On 22.07.21 at the HBLB workshop, I verbally updated the board on this meeting. I raised how our BIDs in the Bays subdivision would benefit from a refresher session with the Auckland Council BID team to ensure they understand their purpose and the role they represent.

**Date:** 11.08.21

**Time:** 1pm

**Location:** Coriess, Torbay

I have concerns with this BID and where it is headed. The discussions that we had on 14.07.21 have not lead to improved outcomes for the BID or the Torbay business community. I will be raising this with Gill Plume.

A primary source of revenue for the BID is their monthly Torbay magazine. A concern was raised about the monthly advertorial article by member Parfitt and member Poppelbaum. It was confirmed by the editor that the members were receiving this space for free. The editor confirmed the space is gifted to these members at a value of \$245 incl. GST per month. The advertising has been in each monthly magazine since Dec 2019 and equates to approximately \$5,800 worth of free advertising.

02.07.21 Contacted Ben (AT) for an update on the project. He is contacting the project manager and will respond in due course

29.07.21 Contacted Ben again for an update on the project

30.07.21 Ben responded and advised the project would be completed by the 12 August 2021

On 12.08.21 at the HBLB workshop I verbally updated the board on this project.
